Sizewell C set to boom economic growth in East Suffolk

The Sizewell C project is set to be one of the most transformative infrastructure developments in the UK, bringing thousands of new jobs, apprenticeships, and training opportunities to the region. As a cornerstone of the UK's energy strategy, this British nuclear project, majority-owned by the UK Government, will not only strengthen our energy security but also play a vital role in building a greener energy system. By complementing wind and solar power, Sizewell C will help protect households from high gas prices while driving economic growth in East Suffolk.

Travel to Sizewell C

The quickest way from Framlingham Technology Centre to Sizewell C is by car — it's about a 20-minute drive covering roughly 14 miles. If you're heading there for a meeting or site visit, it's a pretty straightforward route through the Suffolk countryside.

Prefer public transport? You can take a bus, though it involves a transfer and takes around 45–50 minutes. We are located only 4 miles from the Wickham Market Park & Ride. Taxis are also an option if you're after convenience without driving yourself.

The Perfect Base for Sizewell C Contractors

With construction of Sizewell C expected to take nine to twelve years, demand for high-quality office and workshop space in the area is rising. Just a few miles from the site, Framlingham Technology Centre is ideally placed to support contractors and businesses with flexible offices, workshops, and Framflex coworking tailored to large-scale project needs.

Prime location

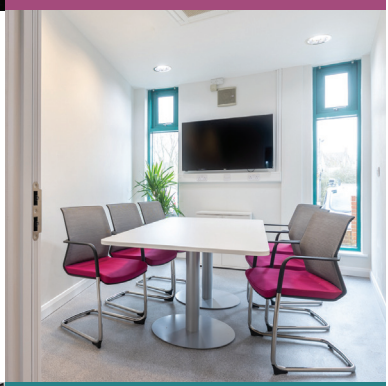
A short distance from Sizewell, our centre cuts commute times and boosts efficiency - ideal for both short-term and long-term workspace needs.

State-of-the-Art infrastructure

Our facilities are designed to support high-demand commercial work, offering spacious workshops and modern offices with features to help your business perform at its best.

Unparalleled connectivity

In today's fast-paced world, reliable internet is essential. Framlingham Technology Centre offers top-tier connectivity, including dedicated Docklands links, ensuring fast, reliable communication and data handling for your business.



Flexible workspace solutions

Whether you need a dedicated office or coworking space, our flexible Framflex options let you scale as your needs change - ideal for long-term projects like Sizewell C.

A Hub for innovation and collaboration

As one of East Suffolk's top business hubs, Framlingham Technology Centre offers a collaborative space - connecting you with like-minded professionals and expertise.

Supporting the Sizewell C vision

The Sizewell C project is more than just a construction site - it's a catalyst for regional growth and a greener future. By providing high-quality workspace solutions, Framlingham Technology Centre is proud to play a part in supporting this vision. Our facilities are designed to help businesses operate efficiently, innovate boldly, and contribute to the success of this transformative project.

Superfast Connectivity at Framlingham Technology Centre

At Framlingham Technology Centre, we've invested in dedicated Docklands private circuits, giving businesses access to exceptional speed, reliability, and security. This means:

Lightning-fast uploads & downloads
No more waiting around for files to transfer. Get work done faster

Smooth streaming & video calls
Reliable connectivity for clear, uninterrupted communication

Stronger security & stability
Private circuits reduce congestion and keep your connection secure

Support for high-demand workloads
Ideal for digital agencies, engineers, and tech startups that need serious bandwidth

NEED ACCOMMODATION?

Use the Sizewell C Accommodation Management System (AMS) to Advertise or Find Local Accommodation

The AMS has been created to match Sizewell C workers with providers of local accommodation. It's free to use and we welcome all types of accommodation, including spare rooms, HMOs, private rentals, holiday cottages, B+Bs, caravan and holiday parks, and hotels – providing the accommodation is of a good standard and safe.
